

## New ThinkPad Accessories - 2

---

Announcement date: 5<sup>th</sup> January 2006

Expand the abilities of your ThinkPad X60 Series notebook by snapping it into the new **ThinkPad X6 UltraBase**. This simple, quick-attach solution adds a wide range of expansion capabilities while being small enough to carry anywhere. The X6 UltraBase supports the ThinkPad Advanced Ultrabay battery (40Y6789) for up to 11 hours of unplugged mobile computing, when used in combination with the high-capacity system battery on select models. Operation from an AC outlet is achieved using the ThinkPad 65W AC Adapter, which ships with X60 Series systems. The adapter is also available separately as an accessory (40Y770x).

The new **ThinkPad X60 Series 4 Cell Slim Line Battery, 4 Cell Enhanced Capacity Battery, 8 Cell High Capacity Battery and Extended Life Battery** are rechargeable system batteries that can replace the original system batteries or be swapped in as spares. Individually, the 8 Cell High Capacity Battery delivers the longest run time for X60 Series notebooks. However, to achieve all-day computing, use the 8 Cell High Capacity and Extended Life batteries together. The Extended Life Battery connects to the docking connector on the underside of ThinkPad X60 Series notebooks.

The new **ThinkPad 60GB and 100GB 7200rpm Serial ATA Hard Drives** balance the requirements of capacity, performance and reliability to meet the exacting standards of ThinkPad customers. Incorporating Lenovo's Drive Noise Suppression System (DNSS), these new hard drives offer reduced noise levels and improved shock tolerance and reliability when compared to previous generation hard drives without DNSS. For additional storage and backup capability, the optional ThinkPad Serial ATA Hard Drive Bay Adapter (40Y8725) can be used to install the drives in the:

- Media bay of selected ThinkPad T60, X60 and Z60 notebooks
- ThinkPad Advanced Dock
- ThinkPad X6 UltraBase

Power your ThinkPad T60 notebook whenever and wherever you need to, with the new **ThinkPad T60 Series 6 Cell Li-Ion Battery**, which can replace the original system battery or be swapped in as a spare. Keep the power flowing wherever you go by taking along an extra, fully-charged ThinkPad battery.

### Highlights

*Features of the ThinkPad X6 UltraBase include:*

- Ultrabay Slim media bay supports:
  - CD-RW/DVD-ROM Combo and Multi-Burner drives
  - Second ThinkPad hard drive (requires hard disk drive installation adapter)
- System power-on button and easy ejection lever
- Gigabit Ethernet (RJ-45) port, modem (RJ-11) port, four USB 2.0 ports, serial and parallel port
- Monitor VGA port, microphone port, headphone port and integrated stereo speakers
- Integrated key lock and security lock slot for optional Kensington lock

*Features of the ThinkPad X60 batteries include:*

- Lithium-Ion technology with over-discharge protection (all)
- 2.5 hours max charge time (with system power off) and a capacity of 28.8Wh (4 Cell Slim Line)
- 3.0 hours max charge time (with system power off) and a capacity of 37.4Wh (4 Cell Enhanced Capacity)
- 4.0 hours max charge time (with system power off) and a capacity of 74.9Wh (8 Cell High Capacity)
- 2.5 hours max charge time (with system power off) and a capacity of 28.1Wh (Extended Life)

*The 4-cell models of X60S have the Slim battery (40Y6999) as standard and the 4-cell models of X60 have the Enhanced (40Y7001). The Enhanced can be used on X60S, but the Slim cannot be used on X60.*

*Features of the ThinkPad 60GB and 100GB Hard Drives include:*

- 2.5-inch form factor with 9.5mm height
- 7200 rpm rotational speed, giving a latency of 4.2 msec
- 12/14 msec average read/write seek times
- Advanced power management technology

*Features of the ThinkPad T60 6 Cell Li-Ion Battery include:*

- Lithium-Ion technology with over-discharge protection
- 3.5 hours max charge time (with system power off) and a capacity of 56.2Wh

Note the already-announced "ThinkPad Z60m/t 9 Cell Battery" (40Y6797) is compatible with T60.

## Products and Availability
